

Eros Opens New Dubai Warehouse

DUBAI — Eros Group has recently opened its largest warehousing facility, expanding its potential to serve the needs of the rapidly growing retail environment in the UAE.

Located at Jebel Ali the new 140,000 square foot facility is capable of accommodating up to 350 containers.

“Eros Group made humble beginnings in 1967 with Hitachi range of products and over the years, the company has diversified and grown to be a Dh1 billion company,” said Deepak Babani, Chief Executive Officer of Eros Group.

The new facility is over twice the size of Eros Group’s first warehouse. Supported by an efficient delivery network and sophisticated inventory management and stock replenishment systems, the warehouse is capable of speedy response to customer demands in any part of the emirates.
