

Phone with answering machine

BY OUR BUSINESS BUREAU

DUBAI: Siemens Home and Office Communication Devices (SHC) is following up on the success of its Gigaset ECO DECT with the launch of Gigaset C380 as well as the C385 which comes with an integrated answering machine.

The two feature-rich phones are ideal for demanding users. The Gigaset C380/385 offer long standby and talk times, ECO DECT, brilliant

voice quality and convenient handsfree calling. They can also be used to send and receive SMS text messages.

The outstanding new Gigaset C380 and C385 cordless phones have brilliant voice quality and important convenience features such as a color display, an illuminated keypad and top-class handsfree calling.

The attractive black-and-silver design of the new Siemens Gigaset C380/C385 is clearly

structured, making the phones easy to use.

With the leading-edge battery management technology, the handset's standard batteries let users call family and friends for up to 25 hours and can go up to 240 hours without being recharged.

The phone-book has room for 150 entries.

For people having a lot of friends, the handsfree calling is a snap: The user can just plug a standard headset into the 2.5 millimeter jack on the handset.

If there is no time to make a phone call, users can easily send and receive SMS text messages.

The Gigaset C385, with a high-quality answering machine that can

record up to 25 minutes of messages, ensures that no call is lost.

With the latest

ECO DECT technology, the Gigaset C380 and C385 cut power consumption by up to 60 per cent compared with conventional Gigaset phones.

They slash the transmitting power needed by nearly 100 per cent when the handset is idle or being charged.

The handset's standard batteries let users call family and friends for up to 25 hours and can go up to 240 hours without being recharged
